APP EU NUNCA

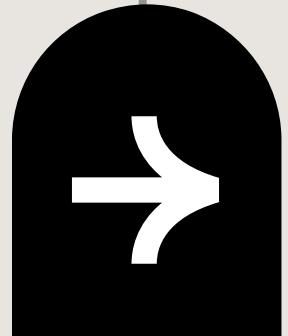

NEVER HAVE I EVER

01

WHAT IS “EU NUNCA”?

“**Eu Nunca**” is a fun and interactive party game app.

It’s based on the classic “**Never Have I Ever**” game — now reimagined with a fresh design, a modern experience, and new ways to play with friends.

②

WHY I BUILT IT

I wanted to create something light, fun, and social – the kind of app you open when you're with friends and want to break the ice.

Also, it was a great way to learn and apply design, state management, animations, local storage, and more!

NEVER HAVE I EVER

03

HOW IT'S MADE

Built with **Flutter**, using:

- 🔥 Firebase to store and sync questions in real time
- 📦 Hive for local data storage
- 🧩 Custom animated UI using Draggable cards
- 🌙 Light & dark themes
- ✓ Local validation and error handling

04

HOW IT WORKS

Open the app
Choose a category
Read the question
Swipe to the next one – like a deck of cards
You can even send your own questions to be added to the game!

05

WHAT I LEARNED

This project helped me level up in:

- UI architecture and animation in Flutter
- Managing user state and custom forms
- Handling offline data
- Improving my UX thinking for casual apps
